

Dear Presidents and representatives,

I want to come back to you to give you final requirements just ahead of the General Assembly.

Expected outcomes of the GA :

- agreement on the mission statement,
- comments and suggestions how to render the website M&M EU even more dynamic, agreement on the statutes of M&M EU,
- first reactions concerning the draft statutes in relation with non-mars&mercurian statutes,
- comments or suggestions how to extend M&M EU to new countries.

As mentioned by Philippe, national reports will not be read, as they are available for consultation. Instead, all Presidents and representatives may have particular issues to highlight.

Administrative remarks :

- Don't forget your QR code Covid-Check,
- Don't forget your identity card or passport allowing to enter Luxembourg Airport to visit „Luxembourg Air Rescue“.

Please find attached a resume of the participation of national delegations to all events.

My very best to you.

Gaston Reinig
Honorary General
General President of Mars&Mercury Europe
